

# Pumpkin Patch Match

*“Pumpkin Patch Match” available on the Apple App Store, Google Play, and Amazon Store on September 17, 2015*

**August 29, 2015** – John Schumacher, aka “Games By Candlelight” has announced his next mobile game, “Pumpkin Patch Match”, for iOS, Android, and Amazon app stores.

Pumpkin Patch Match is a version of a classic pattern matching game, but has a spooky Halloween theme. Match the series of jack-o-lantern patterns to continue. Each successful match will add one additional jack-o-lantern to the series. Continue as long as you match.

Random patterns, words of encouragement, and “second chances” makes Pumpkin Patch Match fun and challenging for everyone. Leaderboards and achievements are also available.

Pumpkin Patch Match will be released on September 17, 2015 for Apple and Android devices. A Windows Phone version will follow.

John Schumacher is an independent game developer, and can be reached at [www.gamesbycandlelight.com](http://www.gamesbycandlelight.com)
